**Guard 1 Services President to Participate on Panel Discussion
at Energy Security Council Conference**

HOUSTON, TEXAS, May 6, 2014 — Guard 1 Services will participate in an interactive panel discussion on the topic “Oilfield Gate Guard Issues and Needed Changes” at the Energy Security Council (ESC) Conference on May 8, 2014. Joining three other industry experts and representing Guard 1 Services will be the company’s founder and president, Posie Clinton.

Clinton, a 20-year veteran in the security industry, will discuss Guard 1’s unique approach to providing integrated security for the energy industry utilizing proprietary technologies to develop customized solutions at an optimum value and executed by highly trained professionals. Guard 1 unequivocally leads the industry in digitally safeguarding people, assets and data on oilfields and drilling sites.

The 2014 ESC Conference will be held at The Woodlands Marriott Waterway from May 6 – 8, 2014 to focus on security issues that have surfaced during the nation’s oil shale and fracking boom. Conference details and online registration are available at <http://www.energysecuritycouncil.org>.

About Guard 1 Services

www.guard1services.com

Guard 1 Services provides integrated security solutions for the energy industry. Fully licensed and insured, Guard 1 utilizes proprietary technologies to develop customized solutions at an optimum value, executed by highly trained professionals. The mobile platform-based company unequivocally leads the industry in safeguarding people, assets and critical data digitally and efficiently, with a laser focus on onshore drilling and related storage, gathering and processing locations. Through the company’s revolutionary PADCenter platform, Guard 1 is the first in the industry to implement and continually evolve an electronic data gathering and storage tool in the safety and security space of the onshore energy industry. Guard 1 is fully licensed with the Private Security Bureau under the Texas Department of Public Safety (license C18363) and carries full coverage for key lines of insurance.
