Guard 1 Services

We're right where you need us

Since its inception in 2012, Guard 1 has been entrusted with protecting your employees and assets with the security professionals, technology, expertise and customized solutions that ensure complete peace of mind. From populated cities to remote locations, Guard 1 ensures all-encompassing surveillance and around-the-clock protection to assure better accountability of your personnel while securing your business from theft and vandalism.

From the oilfield to new fields

Guard 1 provides expert security services to energy companies across the southern United States including upstream, midstream and downstream sectors. We also service the construction industry and corporate security markets.

At Guard 1, we deliver 360 degrees of security through:

Customized solutions that meet your security and safety needs today and as your requirements grow

Real-time information that helps effectively manage job sites and monitor entries 24/7

Proprietary technologies that document events and activities, sort mission-critical data and customize reports

Experts focused on bringing innovative security solutions through a range of unparalleled services

Intelligent security offerings executed with precision

Delivering Your Entire Security Solution

At Guard 1, we develop custom solutions by integrating technology for electronic gate logs, fully integrated databases, online activity reports and customer web access portals.

24-hr Gate Guard

Our highly trained, fully licensed and uniformed guards ensure around-the-clock security at your job site to safeguard your personnel, equipment and critical assets.

- ✓ Reporting, manpower and life support trailer
- ✓ Guard shelter
- ✓ Guards are supplied with one or more iPads for logging vehicles
- ✓ Real-time information is available to customers via mobile app and website portal

12-hr Shift Gate Guard

Our fixed-point 12-hour shift gate guard shelter model is a flexible solution providing an official physical checkpoint to protect against unauthorized access and costly opportunistic theft.

- ✓ Guard shelter
- ✓ Guards are supplied with one or more iPads for logging vehicles
- ✓ Real-time information is available to customers via mobile app and website portal

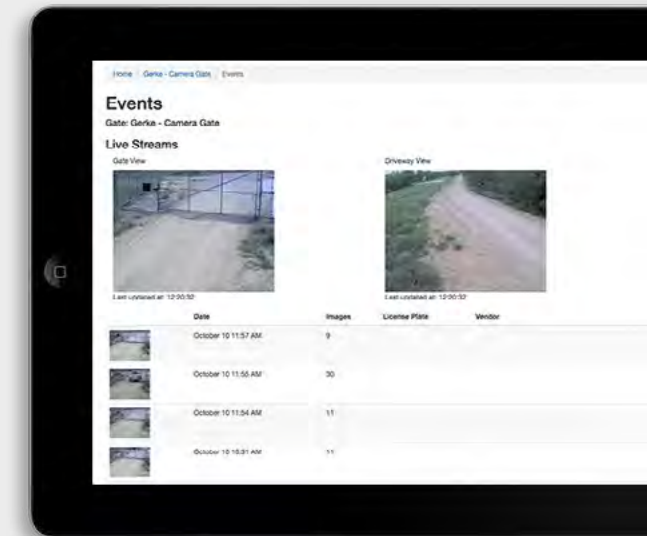

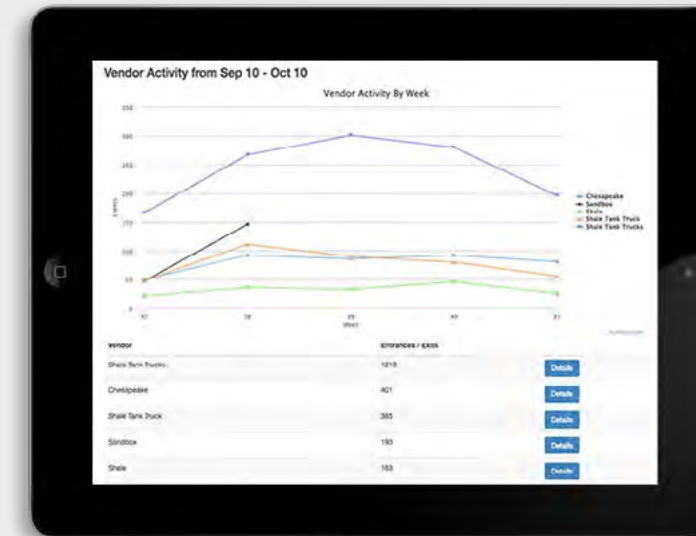

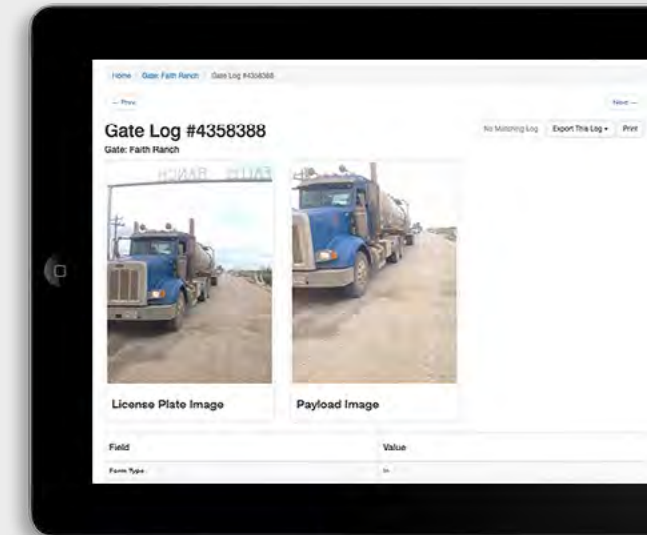

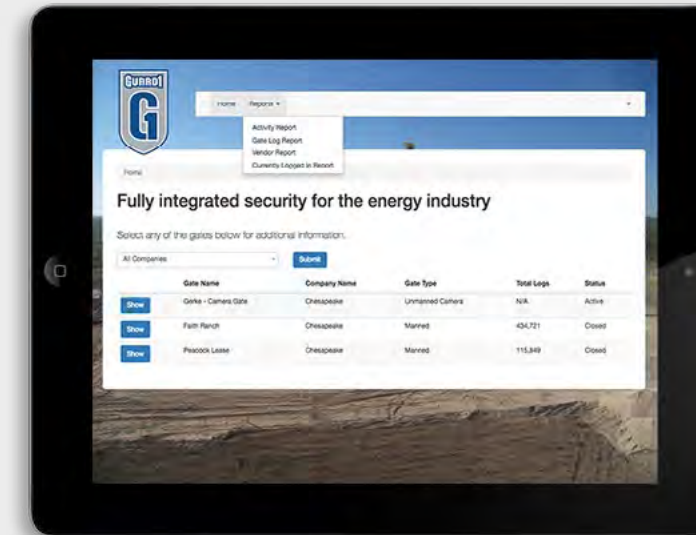

The Sentinel Camera

Two high-resolution cameras provide a real-time view of anyone who enters or exits your site in addition to license plate recognition of every vehicle.

- ✓ Two motion-activated high-resolution cameras with night vision
- ✓ Live video and captured events are archived and accessible via mobile app and website portal
- ✓ License plate recognition
- ✓ Self-contained with a secure cellular connection and solar/battery power
- ✓ Managed, monitored and maintained by Guard 1

Mobile G1: Protecting your people and property

The Peace of Mind of Mobile G1

The security of your people and your property is our prime focus. Our proprietary Mobile G1 technology is an innovative logging solution for data capture, storage, retrieval and customized reporting that gives you the ultimate in control and security coverage.

- ✔ **Real-time Access**
 All data and documentation are uploaded real time to Mobile G1, so you know what is transpiring at your site at all times.
- ✔ **Detailed Event Cataloging**
 Our technology can identify and catalog events such as deliveries and how long trucks are at the job site.
- ✔ **Daily Reporting**
 Daily reports customers can view, download and export including Activity, Gate Log, Vendor and Currently Logging In reports.
- ✔ **Accounting Data**
 Real-time documentation that records and reports accounting data.
- ✔ **HS&E Compliance**
 Ensures that each customer's specific health, safety and environmental policies are implemented.
- ✔ **Signature Capture**
 Digital signature capture for HS&E and MSA compliance.

Safety and support you can count on

No matter how big or small your requirements, we back our comprehensive security solutions with the highest standards in safety and support based on your particular needs.

Safety Excellence

Every Guard 1 gate guard and associate on a job site is thoroughly trained in the policies and procedures of our customers and is certified by the state to perform specific tasks. In addition, our associates are first aid and CPR-trained to provide assistance while awaiting help from the authorities.

Our Certifications include:

- ✓ Fire Safety
- ✓ First Aid
- ✓ H2S
- ✓ Entry Supervision
- ✓ Traffic Control
- ✓ Fit Test
- ✓ PEC (Safe Land, Safe Gulf, PEC Core)

Support Every Step of the Way
